

# LOOKING FOR THE COMPLETE PACKAGE?

Red Wolf Online is a professional services and product development company, providing business productivity tools and consulting that reduce operational risk for Insurance and Reinsurance companies. We take the time to understand your business, its systems and the people using them before we begin to design the solutions that improve your operation. Red Wolf leverages its 15 years of experience working within the insurance industry, bringing our exceptional business acumen to each project.

Red Wolf's products and services are rapidly implemented, quickly adopted and do not require any capital investment to be fully deployed and utilized. With no equipment to buy and no software to conform to, you get all the functionality with none of the hassles.

## PRODUCTS FOR THE INSURANCE & REINSURANCE INDUSTRY:

Red Wolf Online develops web-based products that evolve from a genuine user need to resolve today's real-world business problems. We offer low cost, high value productivity tools that impact the marketing, communication and workflow needs of your business.

### **OnDex Knowledge Management System**

The platform chosen by leading insurance companies for their policies, procedures, and underwriting manuals, OnDex is a content-managed, knowledge management tool with embedded workflow designed specifically for the Insurance industry.

### **Training Wheels**

Training Wheels is an easy to use, web-based training tool built upon an advanced content management system that enables you to effortlessly transfer your company's critical knowledge through a modular, iterative learning methodology that facilitates rapid adoption.

### **MeetingMade™ - Find the Ideal Time in Real Time**

MeetingMade is a web-based calendaring tool that automates and simplifies the scheduling of meetings and events by removing the tedious 'back & forth' over the phone or email.

## SERVICES FOR THE INSURANCE & REINSURANCE INDUSTRY:

Good technology gives you a better handle on your business. Our specialty is producing affordable, easy to use, web-based software that gives you control of your content and technology. We provide creative solutions that make your company easier to manage. We have the experience and acumen to understand your organization's strategic objectives and how to overcome the obstacles that stand in your way.
